Dear Friends,

## **SHAPING THE FUTURE**

I am writing to you to seek your assistance in our Fundraising Appeal for the work which we intend to carry out on our church premises to make them fit for purpose at the present time and into the future.

Our premises have been kept well maintained over the years but we have come to the stage where we must make major changes. Access for disabled people and others needs to be improved; our kitchens and toilets need to be upgraded; we require modern boilers to provide better heating systems and to conserve energy; and we need to modernise the sanctuary to make it a multi-purpose area.

Our halls are used widely, not only by church organisations, but by very many local organisations and societies. For this reason we are reaching out to the whole community of Juniper Green and beyond in the hope that those who wish to see Juniper Green Parish Church continue to provide facilities that are acceptable in today's society, may contribute to the appeal.

The leaflet enclosed gives further details of the project, of the estimated costs and the way in which you may donate. We hope you will consider the importance of such a facility in the local area and that you will support our efforts to provide the best possible services for all users of the halls.

Thank you for reading this letter and for considering the enclosed leaflet. We look forward to hearing from you.

Yours sincerely,

*James S. Dewar.*

James S Dewar
