

## **Shaping the Future Update September 2016**

This Update details the scheme of work on which the Kirk Session will make final decisions on October 5<sup>th</sup>. We present it for your information and there will be an opportunity for you to ask questions and make comments after the morning service on October 2<sup>nd</sup>.

***Remember that the object of the project is threefold; to make the Church premises, Family Friendly, Flexible and Accessible.***

There is a tear-off piece at the bottom of the page which will allow you to express your view, please tick:      **Yes means go ahead**      **No means do not go ahead**

**Priority means in what order the work should be undertaken**

These will be collated and the opinions will be given to the Kirk Session as part of their decision-making process. We hope to gather as wide a representation of views as we can, but the final decisions rest with the Kirk Session as trustees of the congregation.

**Toile**

### **Hall 1**

Fit new double glazed windows  
Convert the under-stage space into storage space with remodelled front doors and wooden wheeled storage units  
Refurbish all the ceiling arches  
Connect heating system to a new boiler in the area behind Hall 1
